\*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

Building N-205 is located just south of Building N-206A. It is a one-story building with a concrete foundation, exposed concrete walls, and a flat roof. The building's massing is simple, detailed with only a horizontal concrete band at the top of the building and a water table at the base. Building N-205 has no windows and is completely utilitarian, strictly serving as a support building to N-206A. Doors to this building are metal flush doors. Some doors have louvers at the bottom. Utilities serving this building are exposed. A chain-link fence has been installed on the southeast corner of the roof. The building size is approximately 2,500 sq. ft. The building previously was utilized as the pilot model of a 3.5-ft. Wind Tunnel and also as the pilot nozzle building.

This building appears to be in good condition.
